

Level II Training Series

Building Operator Certification (BOC) Level II training includes nearly 61 hours of online class and project work (6.1 CEUs) in building systems operation and maintenance. Each course in the series is completed in two online half-day classes. To become certified, participants must pass an exam at the end each two-day course, complete assigned projects, and complete a national certification exam. Those who complete the series without taking the national certification exam will earn a Training Certificate of Completion. Unless otherwise noted, training begins at 9:00 a.m. and ends by noon. Early registration is encouraged. If you have not completed BOC I, you can still get BOC II certified if you have a technical degree and 3 years of related experience or have a union membership at journey level and 3 years of experience.

Date	Course
September 2-3, 2020	BOC 2001: Building Scoping for Operational Improvements Part 1
Sept. 30 - Oct. 1, 2020	BOC 2001: Building Scoping for Operational Improvements Part 11
November 3-4, 2020	BOC 2002: Optimizing HVAC Controls for Energy Efficiency
December 2-3, 2020	BOC 2003: Introduction to Building Commissioning
January 6-7, 2021	BOC 2004: Water Efficiency for Building Operators
February 3-4, 2021	BOC 204: HVAC Controls & Optimization
March 3-4, 2021	BOC 2005: Project Peer Exchange: Present Your Final Report

Tuition Information - Tuition for the series is \$1,200. Customers of SMMPA members shown (including Austin Utilities, Owatonna Public Utilities, Rochester Public Utilities), Otter Tail Power Company, Missouri River Energy Services or Minnesota Energy Resources may be eligible for a rebate upon successful completion of the training.

Are you a veteran? If so, you qualify for a \$200 tuition discount. Email Karin Gredvig at kgredvig@mwalliance.org for the discount code.

Contact Information - Contact Karin Gredvig at kgredvig@mwalliance.org or (312) 784-7243 for questions. To register online visit http://www.boccentral.org.
